Showmanship Pant Measurement Form

DUE DATE _____

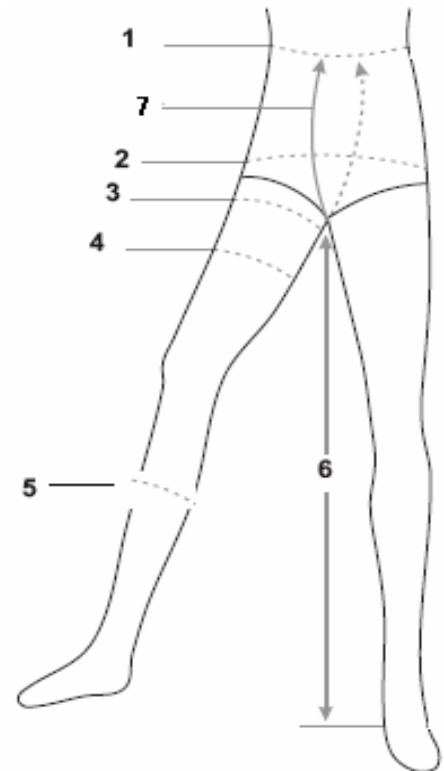

NAME _____ PHONE _____

ADDRESS _____

DEPOSIT _____ BALANCE _____

Many people do not want their show pants as tall as their natural waistline. Often the preference is at the level of the navel. You must take all measurements at the level where you want your pants to fit. This is defined as "pants waist point" on the measurement form. Take the measurements below without shoes on.

- _____ 1 WAIST circumference
- _____ 2. HIP circumference at widest part
- _____ 3. Upper thigh, heaviest part of the thigh (measured horizontally)
- _____ 4. Mid thigh, measured 5" below #3
- _____ 5. Calf measured 5" below knee
- _____ 6. INSEAM, Crotch to floor
- _____ 7. Crotch depth: measure between legs from front to back, starting at the pants waist point in the front and stopping at the pants waist point in the back

DO NOT DRAW TAPE TIGHT. Have someone else measure you; do not try to measure yourself as the measurements will not be accurate.

I require a 50% deposit on all items. This deposit is non refundable. Final payment is due before shipment of article. Designs can be changed if article has not been started. Once a garment is made, no returns will be accepted. Extenuating circumstances may be negotiated with CM Show Apparel, if notification is given within 5 days of accepting article.
